Atos Unify Ready Technology connectivity certification

The connectivity of

EVOIPneo V6.7 (active mode)

developed by ASC Technologies AG has been certified at the CSTA Interface of Atos Unify OpenScape Voice V10 for voice recording in accordance with the respective test report, dated November 01st, 2021.

The test was conducted conforming to DIN EN ISO 9001. This certificate is only valid in conjunction with the full test report and the notes contained therein. **Please consider that the test report only covers the functionality of the interface. The certificate and test report are not good for a statement of end-to-end functionality. Certification is valid for the version mentioned in the test report and all later EVOIPneo V6 versions as according to the Compatibility Confirmation from December 09th, 2020**

Compatibility Confirmation

Dear Sir or Madam,

We hereby confirm that no interface-relevant functions are changed or added within a Major Release of EVOIP*neo* that could affect the interaction with the certified OpenScape platforms.

Accordingly, the certification covers all other Minor Releases within a Major Release. No further certification tests will be necessary.

New Major Releases of EVOIP*neo* will be re-tested and certified with the software version of the OpenScape platforms existing at that time.

With kind regards,

Alexander Hein
Director R&D
