

Atos Unify Ready Technology connectivity certification

The connectivity of

ADAPT 230/231

developed by EPOS | Sennheiser has been certified for usage with Atos Unify OpenScape Fusion for Office and Atos Unify OpenScape Desktop Client PE in accordance with the respective test report, dated December 13th, 2021. As based on the declaration from EPOS the functionality for ADAPT 230 is identical to the tested ADAPT 231 and is therefore also certified.

The test was conducted conforming to DIN EN ISO 9001. Please consider that Atos Unify headset certifications are restricted to functional tests and the certificate is therefore only valid with the full test report and the notes and limitations contained therein. **The supplier of the certified product confirmed in their declaration of conformity that the product is in line with all compliance regulations (e.g. "acoustic shock") and is responsible to perform appropriate acoustical tests for the mentioned products via the relevant interfaces. Therefore, the certificate and test report are not good for a statement of acoustical functionality or quality.**

Declaration of Compliance

We, EPOS Group A/S, declare under sole responsibility that within **EPOS ADAPT 200 series** there are more variants that have identical features with differences affecting only the wearing style and connectivity.

These differences have no other impact on firmware (FW) functionality. The schematics of the RF board is 100% the same. The firmware version is also the same.

The headsets listed below perform acoustically 100% the same, with consideration taken into account for monaural and binaural variants respectively.
