

Atos Unify Ready Technology connectivity certification

The connectivity of

ADAPT 360/361/460/461/560

developed by EPOS | Sennheiser has been certified for usage with Atos Unify OpenScape Fusion for Office and Atos Unify OpenScape Desktop Client PE in accordance with the respective test report, dated July 08th, 2021. As based on the declaration from EPOS the functionality for ADAPT 360 and 560 are identical to the tested ADAPT 460 as well as the variant of the USB-C Dongle and are therefore also certified.

The test was conducted conforming to DIN EN ISO 9001. This certificate is only valid in conjunction with the full test report and the notes contained therein. **Please consider that the test report only covers the functionality of the interface. The certificate and test report are not good for a statement of end-to-end functionality.**

Director Technology Partner Program

Ballerup, Denmark, 4th of May 2021

Declaration of Compliance

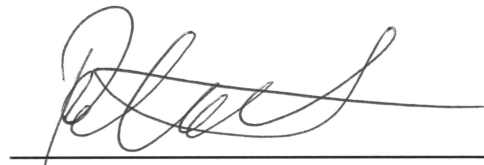

We, EPOS Group A/S, hereby declare that our headsets in the ADAPT product line, as listed below, are identical from a functional perspective and share the same firmware version.

The difference between the headsets in the ADAPT product line are wearing style (Neckband, On-ear, Over-ear). The BTD 800 (Bluetooth® USB dongle) is included for all and is required for call control.

Headset	Neckband	On-ear	Over-ear	BTD 800 incl.
ADAPT 360			X	X
ADAPT 460	X			X
ADAPT 560		X		X

About EPOS

EPOS is an audio and video solution company developing and selling devices for business professionals and the gaming community. Based on leading and advanced technologies, the Danish founded company delivers high-end audio and video solutions with design, technology and performance as paramount parameters.

The establishment of EPOS is based on the decision to let the business segments of the joint venture – known as Sennheiser Communications – between Sennheiser electronic GmbH & Co. KG and Demant A/S evolve in different set-ups. Alongside the introduction of a new own-branded portfolio, EPOS continues to sell the current Sennheiser Communications portfolio co-branded as EPOS | SENNHEISER.

EPOS is part of the Demant Group – a world-leading audio and hearing technology group. As such, it builds on more than 115 years of experience of working with innovation and sound. With headquarters in Copenhagen, Denmark, EPOS operates in a global market with offices and partners in more than 30 countries. Find more information at www.eposaudio.com

Declaration of Compliance

We, EPOS Group A/S, declare under sole responsibility that the below listed models have identical features with a difference affecting only the physical connectivity of the Bluetooth dongle. The variants are introduced to meet market demand for USB-C dongles in addition to the already available USB A dongles.

Based on this, three new commercial products will be introduced; ADAPT 361, ADAPT 461 and ADAPT 661.

This has no impact on firmware (FW) nor on functionality, the firmware version is the same and the headsets listed below perform acoustically 100% the same.

The BTD 800 USB-C dongle is already launched with ADAPT 231/261 and sold separately, and apart from the physical connector it is the same as the BTD 800 USB A dongle.

Existing variant w. USB A dongle	New variant w. USB-C dongle
ADAPT 360	ADAPT 361
ADAPT 460	ADAPT 461
ADAPT 660	ADAPT 661
