

# Atos Unify Ready Technology connectivity certification

The connectivity of

## EPOS | Sennheiser IMPACT D30 Phone

developed by EPOS Group A/S has been certified at the Headset Interface for usage with Atos Unify OpenScape DeskPhone CP in accordance with the respective test report, dated March 21<sup>st</sup>, 2022. As based on the declaration from EPOS the functionality for Impact D10 is identical to the tested Impact D30 and is therefore also certified.

The test was conducted conforming to DIN EN ISO 9001. This certificate is only valid in conjunction with the full test report and the notes contained therein. **The supplier of the certified product confirmed in their declaration of conformity that the product is in line with all compliance regulations (e.g. "acoustic shock") and is responsible to perform appropriate acoustical tests for the mentioned products via the relevant interfaces. Please consider that the test report only covers the functionality of the interface. The certificate and test report are not good for a statement of end-to-end functionality.**

## Declaration of Compliance

We, EPOS Group A/S, declare under sole responsibility that within **EPOS IMPACT D series** there are two variants that have identical features with differences affecting only the wearing style.

These differences have no other impact on firmware (FW) functionality. The schematics of the RF board is 100% the same. The firmware version is also the same.

The headsets listed below perform acoustically 100% the same, with for monaural and binaural variants respectively.
